The MGH Institute of Health Professions in Boston is seeking to fill a full-time (12-month) research faculty position. The primary responsibilities include conducting high-quality clinical research in areas related to occupational therapy, establishing a program of extramurally-funded research, participation in an innovative Interdisciplinary Rehabilitation Sciences PhD Program, and supervising/mentoring student and faculty research.

These positions are funded by the MGH Institute and include very competitive salaries as well as start-up funding to establish required laboratory facilities and cover other costs associated with fostering a successful research program.

Excellent opportunities for collaboration and joint appointments are available at affiliated world-class hospitals including the Massachusetts General Hospital and Spaulding Rehabilitation Hospital network. Current research faculty members also collaborate with other leading institutions in the Boston Area, including MIT and Harvard Medical School.

MGH Institute of Health Professions is a fully accredited graduate school located in the historic Charlestown Navy Yard overlooking downtown Boston, the only degree-granting member of Partners HealthCare (the largest healthcare provider in New England), and our graduate programs are top-rated by U.S. News & World Report.

Requirements for this position are a PhD degree as well as an established record of external research grant funding and peer-reviewed publications. In addition, applicants must submit their cover letter (including area of expertise and research focus) and curriculum vitae. Academic rank is open.

Interested individuals should apply online at www.mghihp.edu/job-search to requisition number 3093539.

For more information contact Dr. Robert Hillman, c/o Heather Easter at heaster@mghihp.edu or visit our website at www.mghihp.edu.

The MGH Institute of Health Professions is an equal opportunity employer and is committed to enhancing the diversity of its faculty and staff. We welcome nominations and applications from individuals who would bring diversity of experience, thought, and practice to the Institute’s research, teaching and clinical missions. Applications from protected veterans and individuals with disabilities are strongly encouraged.
